

World Agility Open Championships 2023

selection procedure for team Denmark

Tryouts for World Agility Open Championships 2023 will be held oct./nov 2022, location not yet specified. To get a spot or a reserve spot on the Danish team you must be present during the presentation of the team.

Four equipages in each jump height category and one junior equipage, (250, 300, 400, 500, 600 - see jump height scheme below) will qualify from the tryouts and be selected to represent Denmark, at World Agility Open Championships 2023.

WAO will be held in Ermelo, Netherlands on 17th - 21th of May 2023.

The Danish team will stay at Fletcher Hotel-Restaurant Mooi Veluwe in Putten (<https://www.fletcherhotelmooiveluwe.nl/nl/>) and team members must arrive within 18.30 on 16th of May 2023.

Hotel rates: Double room € 96.00, dog in the room € 15,00 per night, 1 course dinner € 22,50 - the team dines together every evening at the hotel.

Based solely on the combined results of 4 rounds (1 jumping, 2 agility and 1 snooker) the top 4 dogs in each jump height will qualify for a spot on the team.

Applies for agility and jumping:

Course faults will be converted to time; for example, a 5-fault penalty will result in 5 seconds being added to a dog's time.

Example; a dog that has a clear round in 28 seconds in the Jumping 1 round, and has 5 faults with a time of 32 seconds in the Agility 1 round, will have a total score of 65 (28 seconds + 32 seconds + 5 faults = 65) at that point of the competition, and thus beat a dog that is clear in both runs but with a time of 32 seconds and 34 seconds, giving them a total score of 66 (32 seconds + 34 seconds = 66). Time faults will be treated the same as course faults.

An elimination is 50 faults and dogs that are eliminated will be given a course time of 50 seconds, regardless of the standard course time. The maximum course faults a dog can accumulate is 50, whether by elimination or other combined course faults.

Qualification points from runs by ranking:

Ranking - points

- 1. - 18
- 2. - 13
- 3. - 9
- 4. - 6
- 5. - 4
- 6. - 3
- 7. - 2
- 8. - 1

Applies for snooker:

The object of the game is to earn as many points as possible within the course time set by the judge. Scoring is similar to the billiards game of Snooker; however, the judge may place the obstacles in the ring in any position.

The judge will design a course consisting of 4 (four) red jumps and an obstacle representing each of the other Snooker colours. These will be scored as shown in the table below.

• COLOUR	• POINTS
1. Red jumps	2. 1 point each
3. Yellow	4. 2 points
5. Green	6. 3 points
7. Brown	8. 4 points
9. Blue	10. 5 points
11. Pink	12. 6 points
13. Black	14. 7 points

Snooker consists of two parts. The first part, the opening sequence, allows the dog and handler to collect as many points as possible by successfully completing three of the four red jumps followed by any coloured obstacle. A colour must be attempted after the last red before closing can begin. The maximum number of points available in the opening sequence is 24: 1+7+1+7+1+7. The second part, the closing sequence, requires the dog and handler to complete the coloured obstacles (#2 through to #7) in sequential order before the course time has elapsed for a maximum of 27 points.

A Snooker course should be run as follows:

- Start jump
- Red jump, any coloured obstacle,
- Red jump (different from first red), any coloured obstacle,
- Red jump (different from first and second red), any coloured obstacle,
- Yellow #2, green #3, brown #4, blue #5, pink #6, black #7,
- Finish jump
